Dear Parents:

We are very proud that our school received the letter grade "A" for the 2008-2009 school year from the Florida Department of Education. This grade symbolizes the dedication and effort that is put forth by students and teachers each school year at Colonial Drive Elementary.

Our goal this school year is to continue providing our students the highest quality of education and prepare them for future academic and worldly challenges. In order to do so, we will implement a strong academic curriculum that infuses current technology, combined with a character education program. We will also need parental involvement and support to help us with these goals.

This school year will be challenging and filled with rewarding experiences for our students. Together we will explore ways to continue improving our school and creating a school climate where students optimize their learning opportunities.

In closing, I want to wish all of you success and much happiness during the 2009-2010 school year.

Sincerely,

Henry Fernandez
Principal
